ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

Vienna, 14th.

The Servian Government appears determined to disregard the summons of the Sublime Porte to disarm, and the "entente" of the Great Powers, rejecting the pretensions it harbored toward territorial aggrandisement. Servia maintains her bellicose policy and has put her entire forces on war-footing.

Paris, 14th.

The Eastern Question, which all had considered settled after the Sublime Porte's recognition of the union of Eastern Roumelia with Bulgaria, is again inspiring fears owing to the attitude of the Servian Government. In political circles, a pacific solution of the quarrel is considered improbable.

London 14th.

The exact date for the elections has not yet been fixed. The 17th prox. is considered the most probable date.

PRESS TELEGRAMS.

London 12th—The situation in the East is daily becoming more serious. Despatches from Constantinople to the Secretary for Foreign Affairs state that the Porte has refused to assist at the International conference and insists on the reestablishment of the statu quo in Bulgaria. The Sultan asks leave to take decisive steps to assert Turkey's rights.

The most active military preparations are being carried out. The arsenals in Constantinople are working day and night. A body of 10,000 men have been sent to reinforce the Turkish forces encamped at Cassova, which is the point that would be first seized in case of an offensive movement on the part of Servia.

Sir H D Wolff will sail next week from Constantinople to Egypt.

It is believed Turkey will accept the union of Bulgaria and Roumelia.

The Vienna *Tredemblatt*, official organ of the Austrian Government, points out the great danger Servia and Greece would incur by undertaking a war by themselves, as in a case like this they cannot count on the support of the powers.

It is thought this warning has been directly inspired by Bismark, who insists on the observance of the Berlin Treaty.

The *Standard* correspondent in Berlin states that Germany, with the consentment of Russia, Austria, and England, has proposed a settlement for the Eastern question. The following are the bases of the arrangement: to repeal the territorial pretensions of Servia and Greece; to allow Turkey to continue military preparations in case Servia and Greece should persist in these pretensions; and finally to recognise the union of Bulgaria and Roumelia.

Mr Gladstone has settled the difficulties that have arisen amongst the liberals in consequence of the Radical Whip having assumed the leadership of the political campaign.

The bases for the Anglo-Turkish arrangement for the complete reform of the civil, military and financial Government of Egypt, are the following: autonomy, exclusion of Turkish troops, withdrawal of English troops.

No arrangement has as yet been come to with the workmen that struck for higher wages at the Oldham factories. The workmen refused to accept the conditions that were proposed.

Consols are quoted at 100 1/16.

Constantinople, 12th—The rumor is rather premature that Turkey has recognised the union of Bulgaria and Roumelia. The question is still being discussed by the various European powers that signed the Berlin Treaty.

The Turkish diplomatic representative in Belgrade has been recalled.

The Porte has sent another circular to the Powers asking for some decision respecting the Roumelian difficulty. In the meantime the most active military preparations are being made to meet any emergency.

The Ottoman Bank offers to lend £250,000, but the Porte is in want of a much larger sum.

Philippopolis, 12th—Mr O. Karaveloff, Prime Minister in Bulgaria, states that tranquillity will be maintained in Macedonia, as in the event of a rising Servia and Greece would divide the territory between them.

Athens, 12th—A demonstration has been made in favor of war. The army is being actively mobilized; 40,000 men of the reserves are already under arms.

Belgrade, 12th—Excitement is great, and military preparations are being made with extraordinary enthusiasm. The English, Austrian and French commercial houses in this city have offered to equip 25,000 men, all the contracts having been accepted, and one likewise for the equipment of 35,000 horse soldiers.

Brussel, 13th—In a letter to M. Emile Louis Victor Laveleye, a well-known Belgian Economist, Mr. Gladstone states:—"I am in favor of the Bulgarian annexation but I am certain that its territory will never overstep its present limits, as I fear a disastrous competition amongst the Powers, and also between the Greek and Sclavonic races, for an extension of territories. I speak reservedly on a question of such vital moment, as I am puzzled in the face of numerous difficulties in which it is enveloped. I believe the Bulgarian union, to be an excellent measure, but its consequences may prove disastrous."

Vienna, 13th—A telegram from Sophia states that the inhabitants are flying in all directions, in consequence of the alarm caused by the report that the Servian army had crossed the frontier. Government immediately telegraphed for the return of Prince Alexander, who was in Philippolis.

Another telegram states, that the Servian Government have contracted for 60,000 kilograms of cereals. The troops are advancing towards Ak Palanka and Leskovatz, thus nearing the Bulgarian frontier.

Paris, 12th—The political situation of France is much strained. M. Floquet, President of the Chamber of Deputies, M.M. Lockroy, Clemenceau, and another Republican leader, have made an arrangement for the purpose of giving at the second elections a unanimous vote for the Republican candidate that received the greatest number of votes at the elections held last Sunday.

M. Floquet advises President Grevy to urge the expulsion of the Orleans family, and to prevent the marriage of Prince Waldemar, son of the King of Denmark, with the Princess Marie, daughter of the Duc de Chartres. M. Floquet says that marriages of this nature are dangerous to the welfare of the Republic, as they encourage the pretensions of the Royalists in France.

Paris, 13th—In reply to the congratulations of his having resumed his seat in the Chamber of Deputies, M. Brisson stated that the increased number of Conservative seats will not lessen the confidence of the Republicans, who can count on a majority of 150 in the new Chamber. He also declared that the Monarchists were endeavouring to bring about the fall of the Republic and to cause a revolution, as a preliminary step, towards that noble end.

Madrid, 12th—Germany's note rejects the pretensions of Spain to the Palaos and Caroline Islands, stating that previous to the occupation of Yap the mediation of the Powers hae been solicited.

At the Cabinet Council held to-day Sr. Canovas del Castillo declared that the Caroline question would speedily be satisfactorily solved by mutual concession on the part of Spain and Germany.

Madrid, 13th—The papers of this city state that the negotiations with Germany, for the settlement of the Carolinas question, are a complete failure.

New York, 12th—The death is announced of Cardinal Closkey. He will be interred in the same vault in which his predecessor, Archbishop Hughes, was laid.

Santiago de Chile. 13th—The Ministers of Interior and Finance have sent in their resignations.

Exchange on London, 27d. for $1.

Patagones, 14th—General WInter arrived yesterday.

The Pomona has sailed for Buenos Ayres with a full cargo and passengers.

Montevideo, 14th—The gun boat Artigas and several other boats have left to rescue the Darwin, which has stranded on the English Bank. Up to the present it is not known whether the combined efforts of these boats have been successful.

The *Razon* has been accused by the Fiscal for an article on the Paso Hondo question.

A project for the establishment of a sugar factory in the Chaco is on the tapis.

The President's wife has sent a donation of $1,000 dollars to the Beggars' Asylum in Asuucion.

The English Cemetery will be inaugurated to-day. The death is announced of Julian Alvarez, an old soldier of the Independence.

Three of Colonel Latorre's children are in a very precarious state of health.

Dr. Angel Costa has not decided yet to reside in Buenos Ayres.

At Puerto Sauce a railway is being built for the service of the quarries. This line will, in all probability, be extended to the Rosario Colonies.

There are over 600 people in quarantine on Flores Island.

GERMAN IMMIGRATION.

The attempt to establish German colonies in the valley of the Rio Negro, merits the support of all, and we hope to see it yet succeed; but it is surrounded with many and great difficulties. The National Government has gone to much expense to start a number of Schleswic Hollstein families at Pueblo Roca, where a canal has been constructed for irrigation purposes, but, so far, the attempt has not been attended with the success it merits, and we even heard from some English estancieros down there, that the German colonists had left the colony, and had come down the Rio Negro to Conesa, Pringles, and Patagones, and in scattered bands had sought and found employment on the surrounding estancias. This is much to be regretted, as the Germans are good agriculturists, and if they cannot make headway at Pueblo Roca, at least they might all get a comfortable start at the new Tornquist colony, near Bahia Blanca, where all the Hollsteiners in the Plate could find rich, fertile chacras on fair, easy terms and with a market at their very door.

We find in the Foreign office report from last month, Mr. Calvo's letter to Dr. Ortiz, Minister of Foreign Affairs, on this subject. Mr. Calvo writes from Berlin under date Aug. 17th, 1885, and explains to the Minister that some of the statements made in the German papers about the German colonists in the Rio Negro, have been rectified. The following is Mr. Calvo's letter together with an extract from the *Hamburger Borsen Halle* on the difficulties which gave rise to the note in question:—

Berlin, Aug. 17th 1885.
Argentine Legation.

M. le Ministre:

In a letter from this Legation dated April 15 of the current year an account was given to Y. E. of an incident that occurred between the Burgomaster of Hamburg and the Argentine Consul in that city with reference to an article published in *Die Post*. The article mentioned states that the Argentine Government declined to carry out their contract with the emigrants from Hollstein. I have the honor of again acquainting Y. E. with the progress of the question and forwarding a communication form the Argentine Consul pro. tem. in Hamburg, correcting a statement made in the *Hamburger Borsen Halle* with reference to said question.

Permit me to seize this occasion to reiterate the assurance of my most distinguished consideration.

Carlos Calvo.

To H. E. the Minister for Foreign Affairs.

"Some days ago an article appeared in the *Kiel Gazette* with the following introductory lines: We are requested to publish the letter at foot which appeared in the *Post*.

It is now some time since a group of emigrants left via Hamburg for the Argentine Republic. Previous to their departure the emigrants had arranged with the Argentine Consul in Hamburg for the passages etc. In the contract which they drew up with the Consul referred to, it was stipulated that the Argentine Government should transfer the emigrants free of charge to any specified part of the Republic.

The greater part of the emigrants had decided to join their countrymen at Reconquista Colony, but when they arrived at Buenos Ayres, the authorities did not pay any attention to this stipulation and the bulk of emigrants were sent down to Patagonia in spite of their protests, in order to colonise the lands situated at the confluence of the Rio Neuquen and Limay, both tributaries of the Rio Negro. That is to say the emigrants were sent to settle on lands not suited for colonization purposes owing to the ungrateful nature of the soil; the total absence of railway communication, and the innavigability of the rivers mentioned for vessels of large draught.

From this it is evident that the emigrants have been deceived and the official character of the Consul, through whose mediation these emigrants were drafted to River Plate shores, is likely to give rise to much distrust and a want of confidence in future promises held out to attract immigration.

Before reproducing this letter we thought fit to make inquiries on the subject at the Argentine Consulate in Hamburg and we received the following reply '—

Hamburg, July 24th 1885.

To the Editor of the *Hamburger Borsen Halle*,

Sir,

Your favor and the *Gazette* of the 15th inst. I have received, and I beg to tender my warmest thanks for the considerate attention you have displayed in making inquiries at the Consulate with regard to the serious charges published in the *Post*.

As you, Sir, will readily understand, the Spanish-American Consuls in Europe are placed, as it were in the impossibility of refuting the false accusation often made by discontented and ill-minded people. In the present case, the charges are all the more serious as the honor of the Argentine Republic is questioned, and I may here remark that that fertile territory holds out bright prospects and a certain prosperity to all who choose to work and persevere honestly on its rich and extensive lands. With regard to the article "Warning to Emigrants" published in the *Post* and reproduced in the *Kiel Gazette* of the 15th inst., it refers to the two bodies of emigrants that applied to this Consulate on November 29th ult. and February 18th of this year, respectively.

As sole reply to these charges published in the papers already mentioned, I shall merely state that the first expedition was headed by Mr H Botscher and the second by Mr Kirmes, both well-known in their department (Hollstein). Now as both these gentlemen had a copy in German of the contract, and as they did not protest when in the Argentine Republic, it is to be presumed that, if the immigrants were sent to Colonia Roca, on the Rio Negro, this step must have been taken with the consent of all interested. In looking over the papers of the Argentine Republic I see no mention made of the incident."

THE SEASON.

In a series of articles and letters from most intelligent correspondents, we have discussed the great question of Hard grass camps for sheepfarmers, and the opening they afford to beginners or parties with small capitals. The result of the discussion is that cattle do well, and sheep, particularly of the Lincoln breed, and in small flocks, also do well, provided the farmer or estanciero has a few squarer of "alfalfa" at the estancia house and "puestos." It seems to be an admitted fact that on hard grass camps more agricultural industry is needed than on the fine inside lands. The results of the winter season in the hard grass camps have been belled about, and vindictively commented on by those of our countrymen who have camps inside, and lack the enterprise and energy to start themselves or anybody else on the new lands; but nothing at all has been said about the results of the winter season on some of the richest, dearest, and best inside lands in this Province, lands in the partido of Mercedes, Lobos, Navarro, Azul, Olavarria, Magdalena, Areco, and other equally favourite districts. From all these partidos we hear of losses in the flocks as heavy and in some cases heavier than any on the outside camps. The poorer class of sheepfarmers, owing to the fall in wool, will hardly have enough to pay their bills for life's necessities at the neighbouring stores, whilst those farmers, who have flocks of their own on dear high-rented lands, will be unable to pay their rents, and compelled to exchange their sheep for cattle and start for new and cheap camps, where all a man's earnings will not be swamped to pay the rent for a single "puesto." Although the winter season has proved so severe and so unfavorable, still, we see no reason to change our opinion in one iota on the subject of new camps, and any man who can start, with 200 cows and 500 sheep, should not think of remaining on the inside lands, but should rent or buy a league of new camp and set about and make a comfortable independent home for himself and his family. It appears now that the "lino" farmers are far and away ahead of sheepfarmers in their profits; but why, we ask, cannot a sheepfarmer grow a square or two of "lino" at his "puesto," since the crop of a small patch of "lino" pays more than the wool of a large flock of sheep. Sheep and "lino" should be the banner of our countrymen, and not as hitherto all sheep and all "lino." We know of Irish sheepfamers whose lands, over a quater of a century ago, were paid for by the butter their wives made and sent into town every month, but now-a-days we have no such industry amongst our countrymen. The Italians and Basques supply the city with butter.

The "lino" crop of the new season will be greatest ever known in this country and is estimated by parties in the business of its export at ten millions nats. dollars; of this magnificent and gigantic crop what share, we should like to know, falls to our countrymen in the camp. The same question was put to us by an Argentine Agrimensor about the new partidos, in the frontier camps, created by the Government of Buenos Ayres. Why where on earth are all your countrymen that I can't find half a dozen Irish sheepfarmers owners of the lands outside, or at least if they do own the land, their names do not figure as owners? We believe that the strong prejudice that exists amongst the old, Irish sheepfarmers against these outside lands, has checked their enterprise, and many of them who would withingly pay 10$,000 m/n for a league of inside land would not pay 10,000 m/n far a league of outside camp. But the country is growing and spreading very fast, and a league of good outside land near a railway is thrown away, when sold for 20,000 m/n. New interests, new industries, and new markets are springing up. Sheepfarming on the old plan and system has had its day. The business is still a good one, but not under the conditions at present existing in some of the partidos. Over 100,000 bales of last year's wool at present lie in deposit in Europe unsold, and this is 1/3 of the whole clip. If all the lambs lived, and the farmers had no losses in their flocks last winter, the wool would be hardly worth shearing off the sheeps' backs. The world cannot consume all the wool produced, and it is nonsense for owners of land to expect the rents of former years for their "puestos;" such rents may possibly be paid by "chacareros" and lino growers, but not sheep farmers, and the sooner we all awaken to this fact the better The River Plate is a very rich country, but with all its wealth it can't give to every emigrant who lands a French cook, and 10,000 m/n. per annum rental.

CURSO FORZOSO LAW.

Although not as yet promulgated we give our readers the following exact translation of this Law, as passed after great debate and modifications by both Houses of Congress, and we recommend our readers to cut out the Law and keep it for reference, as the probabilities are we shall have 'curso forzoso' in this country for many years to come.

Art. 1—Sanction is hereby given to the decrees issued by the Executive on the 9th, 15th, 21st, 23rd and 31st of January, and 21st of March of the present year, authorising inconversion and declaring legal tender the notes of the National Bank all over the Republic, those of the Provincial Bank of Buenos Ayres in that province, and in the capital of the nation, and those of the Provincial Banks of Santa Fé, Cordoba, Salta, and Muñoz and Rodriguez of Cordoba in their respective provinces.

The Niger's Mails.

London, September 19th.

By Royal proclamation Parliament stands prorogued from Oct. 31 next to Saturday, Dec. 5th.

Her Royal Highness the Princess of Wales will lay the foundation stone of a new English church at Copenhagen to-day, when the Danish Royal family and their other guests, including the Prince of Wales and the Emperor and Empress of Russia, will be present.

Our Paris correspondent telegraphed last night that in the course of inquiries which he had made into the rumours of cholera having appeared in that city, he had found that six mild cases, apparently local and sporadic, had occurred at Montreuil. There is at present no cause for alarm. Nine deaths took place at Marseilles on Thursday and five yesterday at Toulon. In Italy a total of over 130 fatal cases was reported yesterday.

Renewed fighting has taken place in Madagascar, where on the 10th inst., Admiral Miot made a reconnaisance at Farafat, where he found the Malagasies strongly entrenched. The French had two men killed and thirty-five wounded.

Out of ten yachts competing yesterday for the Vice-commodore's Cup, off New York, the Genesta proved the victor.

Mr. Gladstone has issued an address to the electors of Midlothian, formally intimating his intention to stand for the country at the general election. The right honourable gentleman, after renewing the legislation of the past, and that left untouched by the expiring Parliament, treats of our relations with the British dependencies and with foreign Powers, more especially Egypt. Reforms which must be dealt with by the new House of Commons are next touched upon, and the address concludes with a consideration of future policy with regard to Ireland.

Last night Mr. Chamberlain, addressing a meeting at Inverness, dwelt on the land question, particularly referring to the case of the crofters, and expressing pleasure that they had at length been able to make their voice heard at Westminster. The time had come when the electors must prevent the abuse of property and define clearly the limits of its rights. He also referred with satisfaction to Mr. Gladstone's manifesto.

Speaking at St. Leonards last night Mr. Goschen strongly supported the programme set forward in Mr. Gladstone's address to the Midlothian electors, and, although admitting the right of all Liberals freely to express their views, strenuously defended the position taken up by Lord Hartington and the moderate members of the Liberal party.

The Queen's proclamation disembodying the militia regiments called out for "weighty reasons" last February, appears in last night's *Gazette*.

Early yesterday morning a collision occurred off the South Foreland between the screw steamer Brenda and the General Steam Navigation Compan's vessel Dolphin, by which it is feared seven or eight lives have been lost. The Dolphin went down soon after the accident.

Before the Aston magistrates yesterday, James Ovens, aged sixty, of independent means, was remanded on a charge of criminally assaulting Fanny Chapman, twenty-two years of age, who had come to his house in consequence of being engaged by him as a lady's maid.

In committing William Mellish for trial on a charge of prize-fighting, the Grays magistrates yesterday warmly commended Detective Earnshaw for his courage in arresting and securing Mellish single-handed, after the other principal had been rescued from his custody by a violent crowd.

Six cases involving offences against young women and children were disposed of at the Central Criminal Court yesterday. Sentences were pronounced of ten, eight, seven, six, and five years' penal servitude, and one prisoner was sent to gaol for fifteen months with hard labour.

Dealings on the stock Exchange yesterday, though very limited, consisted chiefly of realisations, and the markets were flat. The principal feature was the depression in Egyptian bonds, which fell 1 to 1¼ per cent. on Mr. Gladstone's manifesto. The Tribute loans declined about ¾. English, American, Canadian, and Mexican railways also receded, but Consols were unaltered. A recovery occurred in Cable shares.

London, 2 p.m.

At Bow street Police Court, to-day, Rebecca Jarrett, aged about forty, was charged with several offences in connection with the abduction of the girl Eliza Armstrong; first with having on the 3rd of June last, and on other days between that date and the 24th ult., taken Eliza Armstrong, an unmarried girl, under the age of sixteen, from the possession, and against the will, of Charles Armstrong her father, and her mother; secondly, with taking the girl away with the intention to deprive her parents of her possession; thirdly, for indecently assaulting Eliza Armstrong, and conspiring with one William Thomas Stead and divers other persons to commit said offences; fourthly, for administering, and causing to be administered to, and taken by Eliza Armstrong, a certain noxious thing with the intent to injure her; and conspiring with William Thomas Stead to commit said offence.

Mr. Poland (instructed by the Public Prosecutor), appeared for the prosecution.

Mr. Poland said he had been instructed to take charge of the case by the Secretary of State and the Attorney-General. He said the child was taken away under the pretence that she was wanted to aid the prisoner in work at her house at Croydon, but that from that day until the 24th August her parents did not set eyes on the girl again. From inquiries made it appeared that the child was taken from this country on the 4th June, first to Paris, and then some 400 miles from Paris, to the house of M. Berard, at Loriol, department of Drome. The father went to Loriol, but no trace of the child could be found, it having been sent again to Paris to be brought back to England. It was only through the intervention of the police that the child was returned to its mother. On August the twenty-fourth, and since then, unavailing efforts had been made to ascertain what had been done with their daughter. The warrant was granted on the 21st ultimo for the extradition of the prisoner, but information was afterwards obtained from Mr. Bramwell Booth, of the Salvation Army, that the prisoner was in this country, and she surrendered herself at Scotland Yard last evening. Counsel said he did not propose to-day to go into the details of the case, but asked for processes against other persons who aided and abetted the prisoner in the commission of these offences. These persons were Mr. Wm. Thos. Stead, editor of the *Pall Mall Gazette*, and who called himself chief director or commissioner of some special commission; W Jacques, also employed on the *Pall Mall Gazette*; Mrs Coombe, of Holland-road, Kensington; and Madame Elise Maurey, of 3 Milton-street, where the child was examined. Mr. Stead was now in Switzerland.

After the evidence of Jarret's arrest she was remanded, and summonses were granted returnable for Monday.

A meeting of the shareholders and customers of the Munster Bank was held on Monday at Limerick for the purpose of assisting in the formation of the proposed Munster and Leinster Bank. Nearly fourteen hundred shares were taken. A committee was appointed to wait upon the other shareholders, customers, etc, and invite their co-operation.

LATEST FROM IRELAND.

LORD MAYOR'S BANQUET.

Dublin, Sept. 1885

On Tuesday the Right Hon. the Lord Mayor entertained in the Mansion House Mr Parnell, M.P., and the other members of the Irish Parliamentary Party. Twenty-four members of the party were present. Owing to the large number of the invitations the banquet was laid in the Great Round Room, which was well and tastefully decorated. Evergreens were disposed around the room; a gas device of a harp and shamrock, surrounded by the sentiment 'Cead Mille Failthe,' and flanked by the green flag, the tricolour, and the stars and stripes, replaced the 'V R' of past days; and the fine plaster models of Foley's great statues added a classic embellishment. The gallery in which haug the arms of all the Lord Mayors since and including O'Connell was occupied by a large number of ladies. The entrance of the Lady Mayoress was received with applause. Mr Parnell, M.P., arrived at the Mansion House at half-past seven o'clock, and on entering the Reception Room was loudly applauded. Before the banquet grace was said by the Rev J Byrne, C.C.

M O'Donoghue, P P, Arran.

The Lord Mayor gave the toast of the evening, Mr. Parnell, which was drunk with all the honor and amidst the greatest applause. Mr. Parnell replied in a long and powerful speech, which we regret is altogether too long for our columns, but will be found in the *Freeman*, but we give the two following speeches by Mr. O'Doherty and Dean Dillon, as perhaps the most interesting for our readers out here.

The Lord Mayor next proposed "The sea-divided Gael," coupling the toast with the names of the Hon. Kevin Izod O'Doherty and the Rev. Monsenor Dillon.

The toast was most warmly received.

Song, "The sea-divided Gael."

KEVIN IZOD O'DOHERTY.

Dr O'Doherty, in reply, said that the subject was a very large one, and he did not deem it right to venture to enter into it largely that evening; but he hoped to take an opportunity before leaving Dublin of laying before the citizens the little knowledge he might have gained of the subject. It would be found that the Irish abroad had all those characteristics which made the Irish Parliamentary Party eminent—which made them the *creme de la creme* of all parties. The Irish people the world over were remarkable for two qualities—fidelity to faith and fidelity to fatherland. And he believed the people at had had, during the last few years, considerable experience of that (hear, hear). The Irish in Australia had on several occasions sent large sums of money in aid of their poverty stricken kindred at home. They had had many indications of the great interest and sympathy felt by the people of Australia in the great cause which they all had at heart (applause).

MONS. DILLON.

The Most Rev Monsenor Dillon, Buenos Ayres, in responding to the toast, said it was a pride and a pleasure to him to stand there and take part in a banquet in honour of Mr Parnell and the men who were fighting with him for Irish legislative independence. He would go back to the Argentine Republic proud of assisting to-night at the banquet in the Mansion House in honour of Charles Stewart Parnell.

The Lord Mayor then gave the health of the Lord Mayor-Elect, and it was received with great enthusiasm.

The *Scientific American* states that plush goods and all articles dyed with aniline colors, faded from exposure to light, will look bright as ever after being sponged with chloroform. The commercial chloroform will answer the purpose very well, and is less expensive than the purified.

EDITOR'S TABLE.

To-day, H.E. Mr. Hanna, the new American Minister, presents his credentials, and will be received in full state at the Government House by President Roca. A guard of honor will be drawn up in the Plaza, and the President's state carriage with mounted escort, will conduct the new Minister from his hotel to the Government House and back. We look forward with deep interest to the speeches interchanged on the occasion, as they may possibly guide us to the hope of more friendly tariff relations between the two countries. It is really monstrous that for a miserable protective duty, imposed on our wool in the U. States, the gigantic trade that ought to exist between the two sister Republics is nipped in the bud.

The French mails were delivered early, but the passengers have quarantine until the 17th inst. The Niger is crowded with French wool buyers and old River Plate residents, we give the list in another column.

Dr. del Valle's friends are preparing to receive him on his return from Europe. We hear that it is probable he will run as Candidate for the post of Governor of Buenos Ayres.

Mr R E Lett, estanciero, of the South, has arrived back from Ireland in the Galileo. The Rev. Mr West and family have also arrived in the same steamer; also Dr McInnes, of Rosario, whose numerous friends up there will be delighted to welcome him back. Mr Davidson, of estancia Bandurria in the South, also arrived in the Galileo. We welcome them all heartily to the Plate.

Dr Webster has returned from his trip to the camps; he reports everything doing famously outside.

The news from Turkey, Greece, Servia, and all those miserable little kingdoms that are doing their best to bring on a European war is by no means cheering; and, to add to the muddle, the Carolinas question is not settled at all, and has cropped up again as fresh as a daisy. There will be another burst of fury from the Dons. The Madrid Government seems to be playing fast and loose with the public. Our Republican friend, Monsieur Floquet, seems to have become quite "flojo" in his brains, owing to the Conservative victory. He calls on the French Government to prevent the marriage of the Princess Marie of Orleans and Prince somebody of Denmark, second son of the King!! By the way, this interesting and pig-headed old gentleman seems in a very fair way of losing his crown.

Here's another of Uncle Sam's queer feats:—"A brick factory chimney at Salem, 90 feet high, and only 6½ feet diameter, has lately been moved with the aid of six men and two horses 100 feet and safely deposited upon a new foundation. The *Scientific American* says this is one of the most difficult transfers of heavy structures yet attempted."

The *Pampa* is perfectly right in saying that the country's great progress has knocked our rulers "off their heads," and they have lost, if they ever had, the very notion of what economy is. The force of bad example has told on the poor Lord Mayor, who goes slap-dashing along with his new Budget, Boulevard, etc., as if he had an open and unlimited credit with the banks of England and France combined.

We met a man yesterday who was sighing for more rain. We asked him if he knew Dr. Melendez. Some people say we're bound to have a lot more rain when shearing is comfortably commenced.

Dr. Mallo, the eminent Surgeon-Major of the Navy, has been treated rather cavalierly by the Board of Health, and the War Office. It appears there are some new regulations being made by the naval doctors and apothecaries, and these new rules were drawn up without any one having the politeness to say "by your leave" to Dr. M, who wrote to say he could not understand such a snub, and wished to know if it was meant. The Board of something (we really forget what) wrote back to say that they thought it was. This is very queer treatment for an eminent doctor of long services.

The Capitania sailors found a bag of clothes, evidently a sailors' in the river the other day, with the name "T. Gibson" on it. They hold it for the owner.

The French Kermesse opens in the Colon Theatre to-morrow. They say it will beat all previous bazaars for charity ever got up here, even by the self-same ladies, who intend to excel themselves this time.

A Spanish carpenter named Moscoso was locked-up yesterday for having a whole hive of bees in his bonnet.

The end of a pencil is a telling point.

When does a clock conceal itself? When it gets behind time.

The Turn of the 'Tied.'—Starting home after the wedding trip.

"An honest confession is good for the soul," but a penny shave is bad for the jowl.

The inhbitants of Buckhaven have been long esteemed the most illiterate and rude of all the population of Fife; but their own ideas are very different: they look upon their town as a school for politeness and learning. One of the townsmen, talking to a stranger, said, "Be whaur I like, or gang whaur I like, I see naebody hae the sense and havens (manners) that the fouk o' our ain town hae!"

EDITOR'S TABLE

(Continued from 1st page)

A waggish Andalusian girl, who was a servant with a family in Calle Corientes, kept them all on the 'qui vive' for a fortnight lately by throwing stones about the 'patio' after dark, and declaring that ghosts had thrown them at her. The 'patron' believed her, and was ass enough to keep personal watch for the ghosts, while the girl was choking with laughter in the kitchen. Three policemen in plain clothes were also called in to catch the ghosts, but the girl hoaxed them all, until her mistress, who is not such a fool as her lord, induced the cook to 'split' on the girl, and the fun was over. She said she only did it for a lark.

The report that five new Generals are to be added to the army is contradicted; but the denial wants confirmation.

Colonel Bosch is determined to put a stop to the irregular relations between the press and the police. He has now made known that any employee supplying news to those troublesome young gentlemen, the 'cronistas,' will get the sack at once.

There must be a fearful waste of bricks on the Central North Railway extensions. The Damas de Caridad of Santiago del Estero are going to build a house and hospital out of the surplus bricks not required for the Chumbicha branch, and which the Minister of Interior made them a present of.

The Lord Mayor is in a stew about the new General Cemetery, which must be opened soon, as all the other burial-grounds are full. The military authorities are stopping the way, as, in an unlucky hour, his slap-dash Lordship promised to give up the Limpieza service quarters for a barracks, if the military would clear out from the Chacarita. He is quite unable to find other quarters for the Limpieza, and is now offering free quarters for the troops, living or dead, in the new Cemetery, provided the National Government no longer stand in the way of opening the place.

Such is life! The 'inspirado poeta' Leopold Diaz was feted by his friends last night at Philip's cafe; and the poor poet Gervasio Mendez is in such low water that the hat is going round for him. Indeed the poor fellow is in perpetual low water.

That distinguished Zoophile, Gragera, the dog man, is in trouble again. He has a habit of cutting soap and water dead whenever he meets them; and this peculiarity and the squadron of half starved curs he keeps about him have made his residence in Calle Alsina so offensive that the police have turned him out of it, bag, baggage, dogs, big stick and all.

A young thing of 17 summers took oxalic acid on Tuesday because her "novio" wrote to say he had changed his mind and would n't marry her. The doctor was called in in time; and no doubt the faithless one's place will soon be filled up. "Novios" are as plenty as shinplasters in this grand country.

Dr Norman Kerr, the great temperance man, has crossed the North Atlantic 160 times. He'll do it once too often. There are 5 million people in the United Kingdom who support the temperance cause, at least outwardly, but we strongly suspect that the inner man of most of them is a fair judge of whiskey.

Miss E J Mackinlay, of Glasgow, was the first lady tourist who passed a night in the hotel recently erected on the summit of Ben Nevis. In the hotel album she left a record that she 'was most comfortable and most pleased to find herself the most exalted lady in Britain for at least one night.

They are troubled with poets in the Great Republic as well as here. A New York colleague takes the following humourous 'dig' at one of them:—"Joaquin Miller's statement that 'no man ever wrote anything good on an empty stomach,' provokes a malignant rival poet to surmise that Joaquin does most of his writing before breakfast."

The old story! The lightship on Banco Chico has drifted ten miles from her proper anchorage, and there have been several narrow escapes of shipwreck in consequence.

An English woman was assaulted in Calle Garay on Tuesday at 1 o'clock in the afternoon, by a well-known thief who was only released from the Penitentiary on Saturday last. She lost her way and he volunteered to be her guide. When in a lonely part of the street he snatched her watch and chain and bolted. She screamed like a steam whistle, and the fellow was caught at the next corner, where, wonder of wonders, there happened for once to be a policeman when he was wanted.

The Lord Mayor has successfully bullied the contractors of the City Improvement Works into an undertaking to fulfill their contract as regards repairing the streets, which are in a truly deplorable state.

Ex-Marshal Bazaine is said to have been compelled to decline a dinner invitation in Madrid solely because he "had no presentable clothes." But as the ex-Marshal is not now on active service he might have gone in undress."

The exhibition to be held in London next year, and for which preparations on a vast scale are under way, will be the first exclusively American exhibition ever held in Europe. The grounds selected will be in communication with fourteen different lines of railway. It is stated that about ten millions of people reside within one hour's ride of the proposed American Exhibition station, in addition to the 150,000 strangers who, it is estimated, enter the city of London daily. For accessibility by railway the site, which will be at Earl's Court, is probably not equalled by any other in London.

The total number of vessels chartered by the British Government was 135 with a registered tonnage of 300,000, and a carrying capacity of more than 400,000 tons. For these the Government agreed to pay, for a term of six months, twelve and sixpence a ton where the vessel was furnished without a crew or officers, and twenty shillings a ton where officers and crew were furnished. The most of these vessels were charted for six months and returned to the companies in September.

Nueva Bomba Patente 'SIMPLEX'

La Bomba mas barata, mas duradera y eficaz

Inventada hasta hoy.

La falta de una Bomba simple, eficaz y barata ha sido sentida hace mucho tiempo, que sin perdida de fuerza ni peligro de ser atascada pueda bombar toda clase de liquidos.

Para suplir esta falta ha sido inventada—

La nueva Bomba

"SIMPLEX"

La cual es igualmente util tanto para bombar liquidos de todas clases como para pozos y algibes.

Damos a continuacion el resumen de algunas de sus ventajas:

Su construccion es lo mas simple, teniendo un embolo de fierro que no requiere cueros ni rellenos, y que jamas puede descomponerse.

Las válvulas son hechas de modo que ni paja, arena, hojas etc. etc., puedan atascarla ni evitar que funcione.

Es sumamente portatil y puede ser trasferida de los arroyos, algibes, pozos y la cañeria desunida con la mayor facilidad y sin labor.

Funciona rapidamente y la cantidad de agua que extrae es enorme, considerando la fuerza requerida.

Es superior en todos casos a cualquier otra bomba.

Esta bomba es especialmente adaptable a una Estancia para bombar agua llenar barriles en los arroyos, vaciar baños para ovejas, regar quintas, bombar liquidos en hormigueros, nidos de bichos etc, etc. etc.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, **DR COLLIS BROWNE'S CHLORODYNE** has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of **DR. COLLIS BROWNE'S CHLORODYNE** in Diarrhœa, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Gold	45 o/o prem.
Cedulas A	100¾
Cedulas F	80⅞
Cedulas G	85½

The morning opened with another bullish quake that put up the premium and created such a stand-from-under feeling that the numerous dealers who had sold short began buying back. Operations for cash opened nearly one point in advance of last night's closing rates, and under the breezy influence of the bullish squeeze there was a moment when all thought that the premium would touch 46 o/o. The heavy differences, however, paid between cash and the end of the month, and between the latter date and November, induced holders of gold to let go, and a fair supply of specie sufficed to stem the rise and produce a weaker feeling in the speculation.

The situation of the gold market is peculiar and both speculators and outsiders are puzzled what course to take. To judge by the current of the market for the last five days, the situation could not be firmer and the prospects of a further rise in the premium could not be more palpable. All are also aware of the force of the bullish clique, of the powerful elements which they can handle, and have had abundant proof of how they can push the premium with the greatest ease. Such are the general features at the surface of the speculation.

The knowing-ones are endeavoring to sound the depth of the speculation and to plunge under the surface. All attempts up to yesterday showed that the position of the market could not be more bullish To-day, however, in spite of the jump in the premium, there was a revulsion of feeling, and the majority of operators refused to believe in a continuation of the rise. This sudden change of opinion was, no doubt, caused by the eagerness with which the leading bulls sold for the end of the month; many smelt a rat in operations for cash and traced the sales of some brokers to high quarters. A certain inclination to sell for November was also detected in quarters most anxious to bull the market. These speculative surmises may not have turned the current of the market, but they point to a new channel, and we may as well study the echo.

The chief cause of the rise in the premium this morning was the mild panic that seized parties, who had sold short and the outside market in general. The course of the market for the last fourteen days, with its steady export of gold, low exchange and jumping gold speculation, has been the reverse of satisfactory and plausible alarms seized operators yesterday and to-day. The alarm, however, has unmasked the speculation to a great extent. The bears who bought back heavily to-day could see with what eagerness the bulls sold, and in spite of the rise it may be safely asserted that an undercurrent of weakness is felt in the speculation. The bulls are evidently afraid of the loan and of the produce season, but they may push the market to 50 o/o before the reaction overtakes them in their speculative campaign.

One hundred thousand gold dollars changed hands for cash; the market opened at 45.20, advanced to 45½, and closed firm at 45. Seventy thousand were sold for the 15th and 17th at 45.20 and 45. Operations for the end of the month embraced $548,000: the market opened at 44.20, rose to 44¾, and closed hard at the opening rate. Sixty five thousand dollars were sold for the end of November at 43½ to 43. Twenty thousand were sold for the end of the year at 42½

A squeamish feeling seized the Cedula market this morning, and rates at an early hour fell all along the line in sympathy with the drop in the 7 o/o Series. There was a slight reaction towards the close of official hours, but not much to speak of. Operations at the ring embraced 5,000 Series A at 100¾ and 100, 17,000 F at 81½ and 80 for cash. Operations in Series G amounted to 25,000 for cash at 85½, over 100,000 for the end of the month at 85 to 85½, and 50,000 for the end of November at 84¾. The idea of a new issue of Cedulas, exclusively for La Plata proprietors, is not relished in the market, and if carried out will be followed by a stiff fall in the Series in course of issue.

The exchange market is at a complete deadlock, in view of the disappearance of takers. Banking and private paper is offered at 46¾d., but no takers. The bulls state that there is no gold in the market to pay for the bills, but this is out of the question. The money market shews no change; paper is easy, but gold is very tight. A further ease in paper may be anticipated, as the Executive will immediately promulgate the Forced Currency Law, and the National Bank will begin its new issue of 12 millions of dollars. The success of the loan will more than neutralize, for the present, at least, the bad effects of this fresh issue of paper. Once Congress sanctions this loan bill, the rate of exchange will probably rise and the efflux of gold from the country will be stopped. The wool clip and the harvest will help to reestablish in some degree the balance of the market. As the month draws to its close, affairs begin to look brighter.

We welcome to the Plate the leading produce consignee, Don Carlos Lix Klett, on board the French packet Niger. He returns to these shores enveloped in "artistas," who will, no doubt, begin operations in the Once and Constitucion the day they land. All the wool men of the plaza will meet at the molehead to greet the swallows of our busy season. Lower down we publish the list of passengers by the Niger.

Six hundred arrobes of wool from Salto were sold this morning in the Once at 72$m/c per arr. This parcel of wool fetched last year 78$m/c per arrobe, gold. Another parcel, of 700 arrobes, from San Antonio de Areco, was sold to-day at 70 m/c; this wool last year was sold for 80 m/c gold. These prices shew a tremendous shrinkage in value; no wonder the farmers wish to see the gold premium over 50 o/o.

The following is a summary of operations effected this morning at the ring during official hours:—

Mr Acosta, auctioneer, sold on Sunday 62 squares of land in Giles for 5190 $m/n. Buyer, Mr J Pichetto. The upset price of the auction was under 4000$.

The Darwin ran aground yesterday between the Ortiz and Chaco banks. Several steam launches are actively engaged taking out cargo, to float her.

The Italian steamer Europa has postponed her departure for Europe to the 21st., owing to delays suffered in quarantine.

The following passengers are on Board the French packet Niger, in quarantine for 4 days:—

Eugenio Claireau'y señora, F Sivori, Enrique Caulliez, Julio Dehuele, H Delanny, F Funk, Carlos Lix-Klett, H Ziquier, H Breitbael, E Daumas y señora, Z Dulce, Salvino Costa, Z Cohe, Manuel Gonzalez, Ch Cadok y un hijo, E Demarchi, señora y un hijo, J Andrieux, J de Freitas, señora y cuatro niños, L Corten, E Gimpson, Ernesto Collini, E Rossy, E Diaz Rodriguez, Gevadam, Elias Iracla y un hijo, Angel Ibarra, Eulogio Gonzalez, C Furnada, L Pollack, M Delpech, L Besforges, Z Cohen, F Bastin, Margarita Moreira, Casenia de Bruyra, Jose Taleron Perez, Leandra Oliveira Gonzalez, Octavio Delheuf, J de Andrade, A Teixera, Amancio Silvio, B Costa, E Iglesias, A Saldo, R G Max Well.

The Fernambuco, Boybese, Handel, and Europa entered the outer roads to-day. Nine steamers enterd in the last 24 hours. The growth of ocean steam tonnage in the river beats everything in the River Plate.

We take the following from the London *Economist* of the 12th ult:—Messrs Wedekind and Wilson inform us that Mr W M Wilson having accepted the appointment of Managing Director of the River Plate Trust, Loan, and Agency Com., Lim., at Buenos Ayres, has ceased to be a partner in their firm as from 11th August, 1885. The business will be carried on under the old style by Mr. G. H. Wedekind for his sole account. Mr. John L. Bowes' interest in the firm remains unchanged.

The gold market, during afterhours, opened firm as a rock and rose rapidly to 46 for cash and 45 for the end of the month; but at 4 o'clock a weak feeling crept into the speculation and the premium tumbled headlong to 44¼ for cash and 43½ for the 30th. The following business was reported:

150,000$ for to-morrow at 46 to 44½
300,000$ for 30th at 45 to 43½
80,000$ for Nov. at 43 to 42½.

The gold market, at five p.m., closed with sellers at 45, sellers cash, 44, sellers for 30th and 43, sellers for the end of November. The market closed with a very weak feeling.

The steamers Hannover and Dom Pedro arrived to-day at Montevideo.

Two lots of wool from Arrecifes were sold in the South Plaza to-day at 70$ m/c and 80$ m/c per ar., respectively. It is becoming fashionable to send wools from the North to the South Plaza. There is an impression that wool finds a better market and secures a higher price from the habitués of the South market.

We see in London advices that Lord Rothschild has been named President of the Alliance Assurance Company. That venerable old gentleman, the late Sir Moses Montefiore, was the former President of the company. This great Fire and Life Assurance Company is not only remarkable for its age, dating from 1824, or for its capital, which amounts to five millions sterling, but also for the coincidence that the late venerable President bore the name of Moses, who, as our readers are no doubt aware, led the Hebrews out of the land of Goschen; the Rgt. Hon. G. J. Goschen is one of the members of the company's Board, and, strange to say, the popular agent of the company in this city bears the name of the greatest of the Pharaohs.

In the lawsuit which has been begun by the Syndic of the Argentine Bank against Messrs. Mariano and Saturnino Unzué for the recovery of property to the value of 100 millions old currency, which property formerly belonged to the Argentine Bank, the Juez de Comercio Dr. Larsen has sent a notice to Messrs. Unzué who will send in their reply within 9 days. The properties referred to were sold to Messrs. M. and S. Unzué by the Board of Directors of the Argentine Bank, which they had no right to do as specified in the Statutes. This is the basis upon which this extraordinary lawsuit rests. Another detail, which does not lack importance, is that Messrs. Unzué paid for these estates in Argentine Bank Certificates, which only represented a nominal value, the real value being a very small fraction of the nominal one. The Syndic, moreover, maintains that the sale is null, as the interventor of the Bank, Mr. Malbran, refused to sign the bill of sale. The following is a list of the estates at present in dispute. One large estancia property in Entre Rios, known as the Potrero de San Lorenzo, with valuable buildings; one saladero known as the Santa Candida, with machinery, &c., necessary for such an establishment; one small steamer, and several galpones; three potreros (wire fenced); 200,000 ñandubay posts; 180,000 sheep; 25,000 cows; 14,000 horses; this property comprises sixty square leagues of the best land in the country and is estimated at $30,000 per league. Six islands in the Rio Uruguay with an area of 3½ square leagues of the very best lands. The total value of these estates may be set down at $5,000,000, or 120,000,000 of the old currency. If Messrs. Unzué lose, the money will go to increase the dividend of the shareholders. The Syndic has appointed Dr. D. Julio Fourouge as their lawyer. Messrs. Unzué have not yet named a lawyer.
